### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Sadao Kinashi on January 17, 2007.

2. The application has been amended as follows:

Claim 1, line 5 "a rubber-like elastomer" has been changed --an elastomer--,

Claim 1, lines 12-13 "a rubber-like elastomer" has been changed --an elastomer--.

### **REASONS FOR ALLOWANCE**

3. Claims 1-8 are allowed.

4. The following is an examiner's statement of reasons for allowance:

Claims 1-8 are allowed since prior art does not disclose an elastic partition membrane provided with a main membrane body and on either face side of the main membrane body with three displacement-regulating protrusions extending from a nearly central region of the main membrane body, the three displacement-regulating ribs of the first sandwiching member of the cylinder member and the three displacement-regulating ribs of the second sandwiching member, wherein the displacement-regulating

protrusions are set in such a height dimension that top portions can abut against the displacement-regulating ribs and formed so that a protrusion width at the top portions is narrower than or substantially equal to a protrusion width of foot portions of the displacement-regulating protrusions and the protrusion width of the foot portions is wider than a rib width of the displacement-regulating ribs.

The aforementioned limitations and the arrangements thereof are not taught in the prior art. In light of the foregoing, the claims of present application are found to be patentable over prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mariano Sy whose telephone number is 571-272-7126. The examiner can normally be reached on Mon.-Fri. from 8:30 A.M. to 2:30 P.M.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James McClellan, can be reached on 571-272-6786. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
